A Workshop on
Sustainable Rural Biofuel Strategy in Africa

- Please share your knowledge and good practices in Africa or applicable in Africa on;

- Agro-forestry and/or Agroecology good practice to increase bioenergy availability, improve nutrition and bring about healthy environment

- Innovative Biomass Residues to Energy Technology to boost energy access and efficiency.

- Practical Tools to Ensure Positive and Inclusive deployment of bioenergy in a wider range of society

- Selected good practices will be invited to present at the workshop and published in our Cookbook style guidebook.
  (Some funding availability)
- Experiences from Asia, Latin America or other region applicable to Africa are also welcome!

[A] Agroforestry or Agroecology practices which increase energy availability of communities while ensuring positive impacts on ecosystem, nutrition and calorie intake (examples: micro-catchment with fruit trees & animals etc)

[B] Bio to Energy Innovation which enable effective use of 3Rs. (example: efficient bio-ethanol production technology from cassava starch; Biogas for chilling milk at rural market; fuel efficient cook stoves. etc)

[C] Tools for Enhanced Bioenergy Sustainability to ensure positive and inclusive social, economic and environmental impacts in bioenergy development (example: GHG emission impact assessment tool etc)

Abstract Submission: 31 August 2017
(200 word summary of [A], [B] or [C] above)
Full Paper Submission: 30 September 2017
(Template is on the 2nd Page)

Submission/Inquiry to: Ms Yasuko Inoue,
IRENA Innovation Technology Centre
E-mail: Yinoue@Irena.org
Telephone: +49-228-3917-9094

Selected entries: will be invited to prepare a paper and present it at a workshop below. The summaries of the good practices will be included in our publication.
Workshop venue: Side event at FAO's African Forestry and Wildlife Commission (AFWC, probably early 2018)
URL: www.irena.org
## Template for submission of your “Good Practice”

### GENERAL INFORMATION
