LEDS GLOBAL PARTNERSHIP

Mission

Strengthen the knowledge of governments, donors and international organizations, and practitioners to advance and scale up the implementation of climate-resilient low emission development and NDCs around the world.

Objectives

- **Strengthen quality and ambition** of low emission development and NDCs
- **Foster effective implementation** of LEDS and NDCs through policy planning and investment actions
- **Spur development of new** LEDS-LTS by additional national and subnational governments
- **Enable practitioners to champion LEDS and NDCs** in their countries, regions and internationally

Since its launch in 2011 the LEDS GP has become a vibrant platform for peer learning and collaboration.
LEDS Global Partnership
LEDS GP Catalyzes Action and Collaboration Across more than 350 Countries and International Organizations and 2500 individual members

LEDS GP SECRETARIAT AND STEERING COMMITTEE

REGIONAL PLATFORMS
Define priorities and conduct peer learning and collaboration

GLOBAL WORKING GROUPS
Provide technical support and training

National and Subnational Integration
Sustainable Development Impacts
Finance Mobilization
Sectors - AFOLU, Energy, and Transport
LEDS GP Services

Peer Learning and Trainings

Advisory Services and Early Movers Support and Replication

Access to tools, good practices and case studies

Support to LEDS Champions and Communities of Practice
## REGIONAL COMMUNITIES OF PRACTICE

LEDs GP Supports Countries on LTS

Technical Support to Developing Countries
✓ Supported a variety of countries on development of LEDS strategies since 2011
✓ Offering no-cost advisory support to countries on development of LTS to the UNFCCC in partnership with the 2050 Pathways Platform, WRI, UNDP and others
✓ Ongoing EC-funded project to support to 8 African countries on energy modelling

Tools and Best Practices - ledsgp.org/resources
✓ Toolkit on key elements of LEDS and Framework for LTS
✓ Green Growth Best Practices Report
✓ Energy Planning Toolkit
✓ Municipal Energy Planning Toolkit
✓ Power sector transformation study
Collaborative Analysis of Pathways for Deep Low Carbon Power Sector Transformation

- **Expert team identifying pathways and examples of** sustained low carbon power system transformation for developing countries, e.g.
  - Distributed Energy Resources revolution
  - Bulk power transformation
  - Transmission and distribution interactivity and innovation
  - Distributed transactional future

- **Highlighting information, learning, and assistance approaches** that can build broader support and replication of these pathways

- **Opportunity to extend this work** through:
  - Technical assistance with key governments to apply pathways and broader peer learning
  - Extend to other sectors – especially transport and land-use

Analysis of pathways, benefits, and examples – May
Present concepts – June NDC Conference and Sept UN Summit
Partnership dialogue on extended work – Global NDC Conference, other forums
How to get involved:

Access the website to join the LEDS GP and receive invitations to webinars, trainings, and newsletters. Check out our resources and services, and submit a request for advisory technical support:
