

GLOBAL GEOTHERMAL ALLIANCE

Methodology for developing geothermal direct use regulatory frameworks

Michelle Ramírez

27 July, 2021

Outline

Disclaimer

Elaboration stages of direct uses
regulation

Disclaimer

General
steps

- Can be modify as needed

Costume
made

- Local regulation
- Authorities involved
- Local industry
- Particular needs and situations

Outline

□ Disclaimer

□ **Stages of elaboration of direct uses
regulation**

Stages of elaboration of a geothermal regulation for direct uses

First stage:

- Understanding of the current situation

Stage Two:

- Set a goal

Third stage:

- Feasibility analysis

Fourth stage:

- Draft and review

Fifth stage:

- Presentation

Eighth stage:

- Follow-up

First stage: Understanding of the current situation

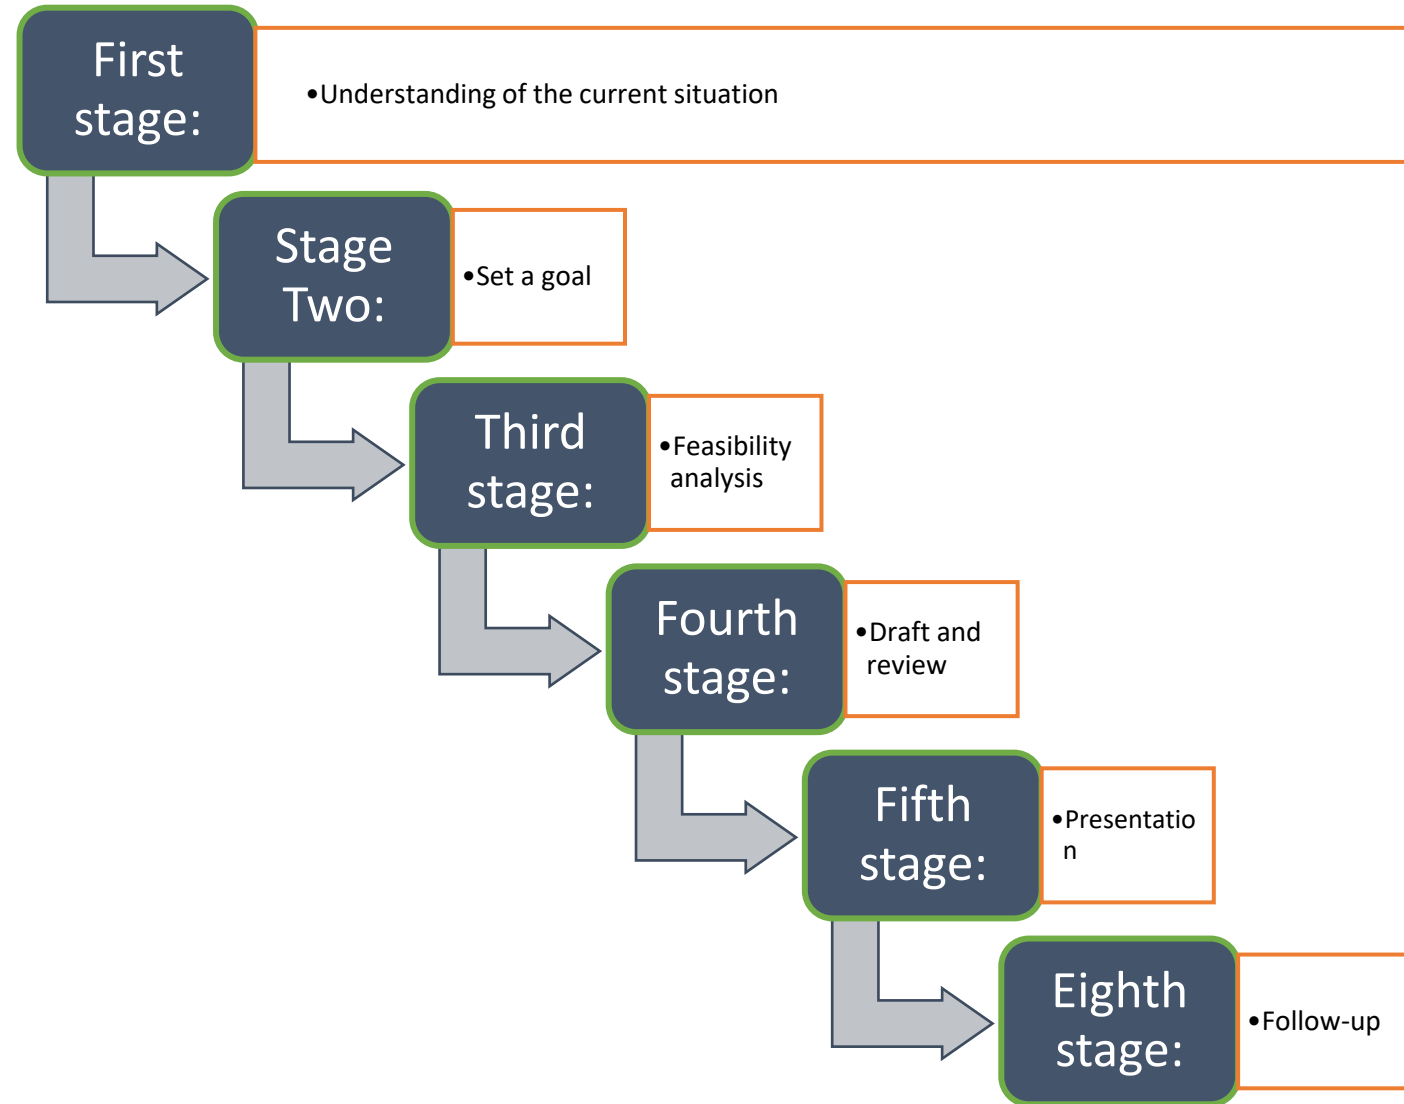

- Understand the current regulatory situation
- Understanding the technology, business, areas with potential
- Analysis of previous efforts
- Transversal regulation

The success of this stage will determine the success of the project.

First stage: Understanding of the current situation

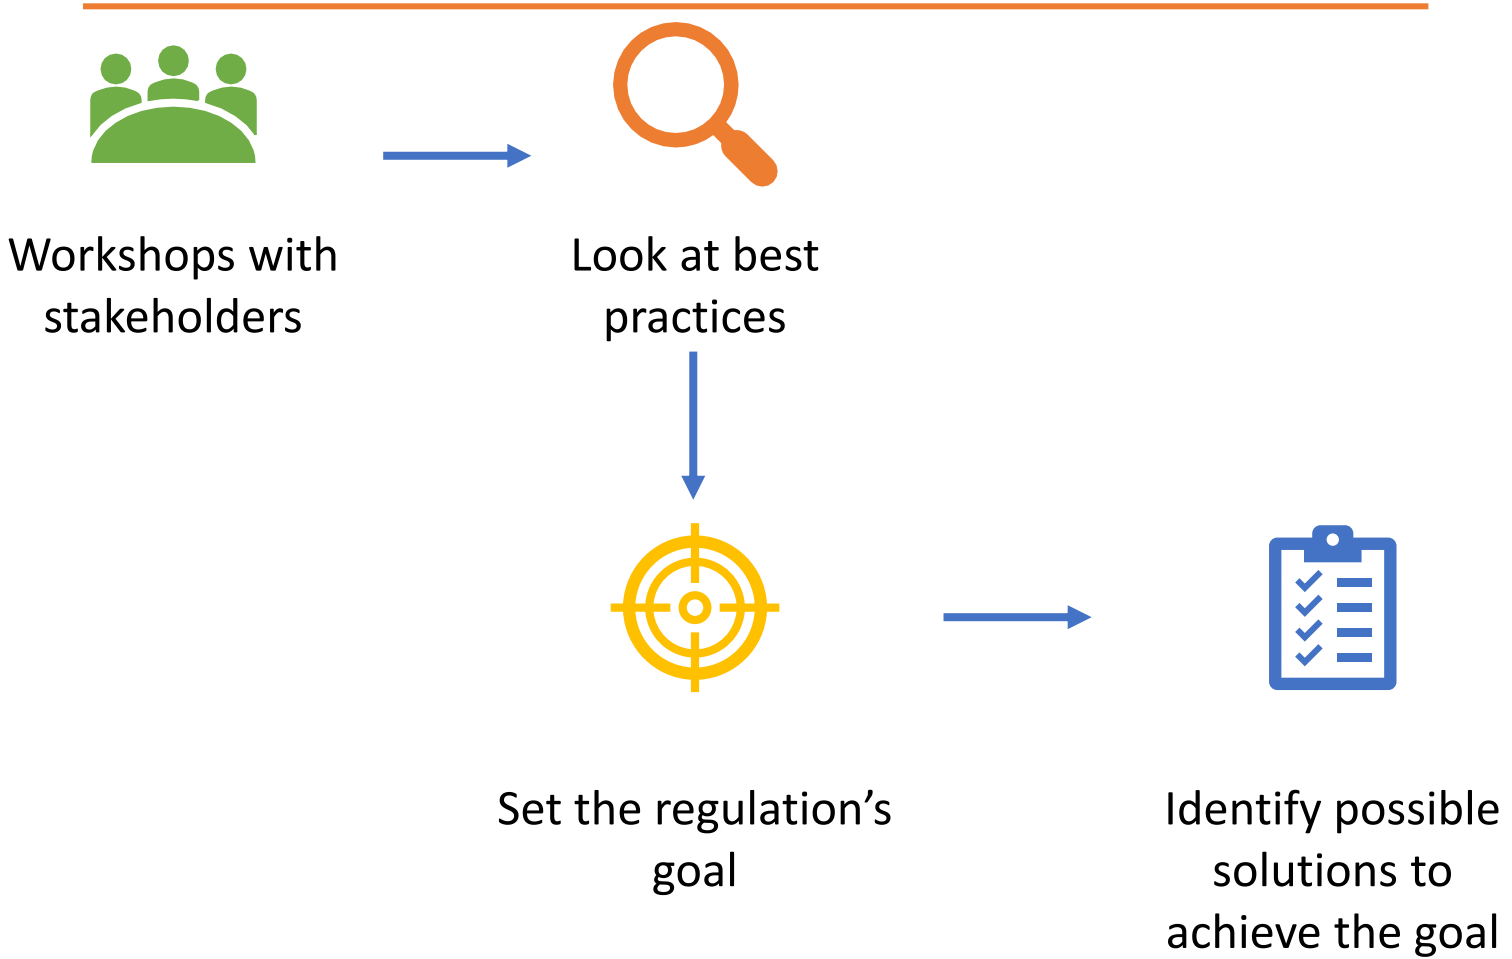

- Understand the current regulatory situation
- Understanding the technology, business, areas with potential
- Analysis of previous efforts
- Transversal regulation

The success of this stage will determine the success of the project.

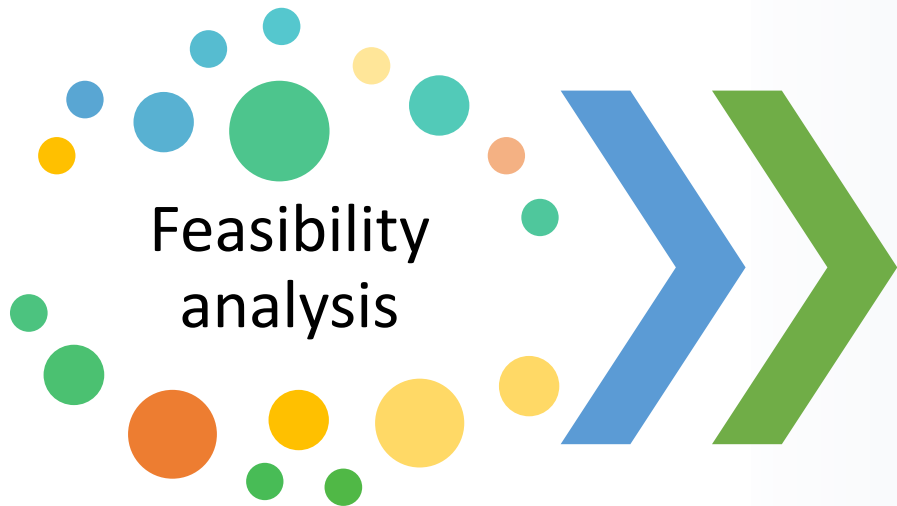

Stage Two: Set a goal

Third stage: Feasibility analysis

- Legal
- Administrative
- Financial
- Political♦

Identify feasible solutions

The graphic shows a green circle containing the text 'Identify feasible solutions'. The background features a large blue circle containing various data visualization elements: a pie chart with a magnifying glass over it, a bar chart with four bars, and a line graph with a hand pointing to it. There are also some faint document icons and a hand holding a pen.

Fourth stage: Draft and review

- Task force
- Workshops
- Socialization

Integral

It must be complete, without gaps.

Irreducible:

You should not express more than is necessary.

Coherent:

Without contradictions.

Realistic:

Product of a comprehensive analysis of social reality and *predict** that it will meet its objective.

Fifth stage: Presentation

Sixth stage: Follow-up
