No changes, substitutions or other alterations to the provisions stipulated in this RFP may be made or assumed unless approved in writing by IRENA in the form of Supplemental Information to the RFP. 2. Submission of a Proposal shall be deemed to constitute an acknowledgement by the Proposer that all obligations stipulated in this RFP shall be met and that, unless specified otherwise, the Proposer has read, understood and agreed to all the instructions provided in this RFP.
3. Any Proposal submitted will be regarded as an offer by the Proposer and shall not constitute or imply the acceptance of any Proposal by IRENA. This RFP does not commit IRENA to award a contract. The Proposal submitted by the successful Proposer will be the basis for negotiations which may lead to conclusion of a Contract with the successful Proposer.
4. IRENA implements a policy of zero tolerance on proscribed practices, including fraud, corruption, collusion, and unethical practices. IRENA is committed to preventing, identifying and addressing all acts of fraud and corrupt practices against IRENA as well as third parties involved in IRENA's activities.

Proposers shall disclose in their Proposal their knowledge of any other circumstances that could potentially lead to actual or perceived conflict of interest, collusion or unfair competition practices. Failure of such disclosure may result in the rejection of the proposal or proposals affected by the non-disclosure.
7. More than one Proposal from any company, either in its own name or as part of a joint venture, consortium or partnership, shall not be considered. If any Proposer submits or participates in more than one Proposal in response to this RFP, all such Proposals shall be disqualified and rejected. ## **B. CONTENTS OF PROPOSAL**

### **8. Sections of Proposal**

Proposers are required to complete, sign and submit in the number of copies indicated in the **Data Sheet** (DS no. 18) the following documents:

- 8.1 Proposal Submission Form (see Section 6 of this RFP);
- 8.2 Documents Establishing the Eligibility and Qualifications of the Proposer (see Section 5 and the **Data Sheet** (DS no. 23) of this RFP);
- 8.3 Technical Proposal Form (see Section 8 of this RFP);
- 8.4 Financial Proposal Form (see Section 9 of this RFP); and
- 8.5 Any attachments and/or appendices to the Proposal, including those specified in the **Data Sheet** (DS no. 24).

### **9. Clarification of Request for Proposals**

Proposers may request a clarification of any of the RFP documents no later than the deadline for the submission of requests for clarification indicated in the **Data Sheet** (DS no. 16). Any request for clarification must be sent in writing or by electronic means to the IRENA address indicated in the **Data Sheet** (DS no. 17). IRENA will respond in writing or by electronic means and will send written copies of the response (including an explanation of the query but without identifying the source of inquiry) to all Proposers who have provided confirmation of their intention to submit a Proposal.

IRENA shall endeavour to provide such responses to clarifications in an expeditious manner, but any delay in such response shall not cause an obligation on the part of IRENA to extend the submission date of the Proposals, unless IRENA deems that such an extension is justified and necessary.

### **10. Amendment of Request for Proposals**

At any time prior to the deadline for submission of Proposals, IRENA may for any reason, such as in response to a clarification requested by a Proposer, make changes to the RFP in the form of a Supplemental Information to the RFP. All Proposers who have provided confirmation of their intention to submit a Proposal will be notified in writing of all amendments to the RFP.

In order to afford prospective Proposers reasonable time to consider the amendments in preparing their Proposals, IRENA may, at its discretion, extend the deadline for submission of Proposals, if the nature of the amendment to the RFP justifies such extension.

## **C. PREPARATION OF PROPOSALS**

### **11. Cost of Proposal**

The Proposer shall bear any, and all costs related to the preparation and/or submission of the Proposal, regardless of whether its Proposal is selected or not. IRENA shall in no case be responsible or liable for those costs, regardless of the conduct or outcome of the process.

## 12. Language of Proposal

The Proposal, as well as all related correspondence exchanged by the Proposer and IRENA, shall be written in the English language, unless a language other than English has been specified in the **Data Sheet** (DS no. 4). Any printed literature furnished by the Proposer written in a language other than the language specified in the **Data Sheet** (DS no. 4) must be accompanied by a translation into the language specified in the **Data Sheet** (DS no. 4). For the purposes of interpretation of the Proposal and in the event of any discrepancy or inconsistency in meaning, the version translated into the language specified in the **Data Sheet** (DS no. 4) shall prevail.

## 13. Proposal Submission Form

Proposers shall submit their Proposals using the Proposal Submission Form furnished in Section 6 of the RFP.

## 14. Technical Proposal Format and Content

Unless otherwise stated in the **Data Sheet** (DS no. 24), the Proposer shall structure the Technical Proposal in the format provided in Section 8 and in accordance with the following:

- 14.1 Expertise of Firm/Organisation – this section shall provide details regarding the management structure of the Proposer, organisational capability/resources, the experience of the Proposer, the list of projects/contracts (both completed and ongoing, both domestic and international) which are related or similar in nature to the requirements of the RFP, and proof of financial stability and adequacy of resources to complete the Services (see Clause 15 of this Section 2 for further details).
- 14.2 Proposed Methodology, Approach and Implementation Plan – this section should demonstrate the Proposer’s response to the Terms of Reference by: identifying the specific components proposed, how the requirements shall be addressed, as specified, point by point; providing a detailed description of the essential performance characteristics proposed; identifying the works/portions of the work that will be subcontracted; and demonstrating how the proposed methodology meets or exceeds the specifications, while ensuring appropriateness of the approach to the local conditions and the rest of the project operating environment. This methodology must be laid out in an implementation timetable that is within the duration of the Contract as specified in the Terms of Reference.
- 14.3 Management Structure and Key Personnel – This section should include the comprehensive curriculum vitae (CVs) of key personnel that will be assigned to support the implementation of the proposed methodology, clearly defining the roles and responsibilities vis-à-vis the proposed methodology. CVs should establish competence and demonstrate qualifications in areas relevant to the TOR.

In complying with this sub-section 14, the Proposer assures and confirms to IRENA that the personnel being nominated are available to implement the Services within the duration of the Contract indicated in the Terms of Reference. If, at any time prior to award of the Contract, any of the key personnel listed in the Technical Proposal become unavailable, except for unavoidable reasons such as death, medical incapacity or delay in the implementation of the Services through no fault of the Proposer, IRENA reserves the right to consider the Proposal non-responsive. Any substitution of personnel arising from

unavoidable reasons shall be made only with IRENA's approval of the justification for the substitution and with IRENA's approval of the replacement, who shall be of either equal or superior credentials to the one being replaced and which shall not involve any additional cost to IRENA.

The Technical Proposal shall not include any financial information. A Technical Proposal containing any form of financial information that could lead to the determination of the price offer may be declared non-compliant.

## 15. Financial Proposals

The Financial Proposal shall be prepared using the attached standard form provided in Section 9. It shall list all major cost components associated with the services, and the detailed breakdown of such costs. All outputs and activities described in the Technical Proposal must be priced separately on a one-to-one correspondence. Any output and activities described in the Technical Proposal but not priced in the Financial Proposal, shall be assumed to be included in the prices of other activities or items, as well as in the final total price.

## 16. Currencies of Proposals

All prices from Proposers shall be quoted in the preferred currency indicated in the **Data Sheet** (DS no. 15).

16.1 Should the Proposer submit a Financial Proposal in a currency that is different from the preferred currency specified in the **Data Sheet** (DS no. 15), IRENA will convert the currency quoted in the Proposal to the preferred currency in accordance with the prevailing United Nations operational rate of exchange on the deadline for submission of Proposals; and

16.2 In the event that the Proposal that is found to be the most responsive to the RFP requirements is quoted in a currency different from the preferred currency indicated in the **Data Sheet** (DS no. 15), IRENA reserves the right to award the Contract in the preferred currency specified in the **Data Sheet** (DS no. 15) using the conversion method specified in sub-section 16.1 above.

## 17. Documents Establishing the Eligibility and Qualifications of the Proposer

The Proposer shall furnish evidence of its status as an eligible and qualified vendor, using the forms provided in Section 7 of this RFP, with such eligibility and qualifications to be documented to IRENA's satisfaction. This evidence shall include, and must demonstrate, the following:

17.1 That, in the case of a Proposer offering to supply goods under the Contract which the Proposer did not manufacture or otherwise produce, the Proposer has been duly authorised by the goods' manufacturer or producer to supply the goods in the country of final destination; and

17.2 That the Proposer has the financial, technical, and production capability necessary to perform the Contract.

## 18. Joint Venture, Consortium or Association

If the Proposer is a group of legal entities that will form or have formed a joint venture, consortium, or association at the time of the submission of the Proposal, all of the members of the joint venture/consortium/association shall submit, along with the Proposal, a duly notarised agreement

confirming that they have designated one member to act as the lead entity duly vested with the authority to bind the members of the joint venture/consortium/association jointly and severally, and that if their Proposal is selected, the Contract shall be negotiated and entered into between IRENA and the designated lead entity who shall be acting for and on behalf of all the members of the joint venture/consortium/association.

After the Proposal has been submitted to IRENA, neither the lead entity nor the composition or constitution of the joint venture/consortium/association shall be altered without the prior consent of IRENA.

The organisation of the joint venture/consortium/association must clearly define the role of each of its component/member entities in the course of performing the Services.

Where a joint venture/consortium/association is presenting its track record and experience in a similar undertaking as those required in the TOR, it should present such information in the following manner:

- Those that were undertaken together by the joint venture/consortium/association; and
- Those that were undertaken by the individual members of the joint venture/consortium/association expected to be involved in the performance of the Services.

Previous contracts completed by individual experts working privately but who are permanently or were temporarily associated with the joint venture/consortium/association or any of its members cannot be claimed as the experience of the joint venture/consortium/association or those of any of its members, but should only be claimed by the individual experts themselves in their presentation of their credentials.

## 19. **Alternative Proposals**

Unless otherwise specified in the **Data Sheet** (DS no. 6), alternative proposals shall not be considered. Where alternative proposals are allowed in the **Data Sheet** (DS no. 6), IRENA reserves the right to award a Contract based on an alternative proposal when the conditions for its acceptance are met.

## 20. **Period of Validity**

Proposals shall remain valid for the period specified in the **Data Sheet** (DS no. 8), commencing on the deadline for submission also indicated in the **Data Sheet** (DS no. 20). A Proposal valid for a shorter period shall be immediately disqualified and rejected by IRENA.

In exceptional circumstances, prior to the expiration of the proposal validity period, IRENA may request Proposers to extend the period of validity of their Proposals. The request and the responses shall be made in writing, and shall be considered integral to the Proposal.

## **D. SUBMISSION AND OPENING OF PROPOSALS**

### 21. **Submission and Opening of Proposals**

**21.1** The Technical Proposal and the Financial Proposal files must be completely separate and each of them must be submitted individually and clearly marked on the file name as either “TECHNICAL PROPOSAL” or “FINANCIAL PROPOSAL”, as appropriate. Each file MUST also bear the name of the Proposer.

The Proposer shall assume the responsibility for the misplacement or premature opening of Proposals due to improper labelling.

21.2 Proposers must always submit their Proposals by email at [bids@irena.org](mailto:bids@irena.org).

21.3 Proposers must be aware that the mere act of submission of a Proposal, in and of itself, implies that the Proposer accepts the General Terms and Conditions for Professional Services in full as attached hereto as Section 4.

## 22. **Deadline for Submission of Proposals and Late Proposals**

22.1 Proposals must be received by IRENA at the address and no later than the date and time specified in the **Data Sheet** (DS nos. 19 and 20).

22.2 IRENA shall not consider any Proposal that arrives after the deadline for submission of Proposals. Any Proposal or modification of a Proposal that is received by IRENA after the deadline for submission of Proposals shall be declared late, rejected, and returned unopened to the Proposer.

## 23. **Withdrawal, Substitution, and Modification of Proposals**

23.1 Proposers are expected to have sole responsibility for taking steps to carefully examine in detail the full consistency of their Proposals to the requirements of the RFP, keeping in mind that material deficiencies in providing information requested by IRENA or a lack of clarity in the description of services to be provided may result in the rejection of the Proposal. IRENA shall not assume any responsibility regarding erroneous interpretations or conclusions made by the Proposer in understanding the RFP.

23.2 A Proposer may withdraw, substitute or modify its Proposal after it has been submitted by sending a written notice in accordance with Clause 21.1 of this Section 2, duly signed by an authorised representative, and shall include a copy of the authorisation (or a Power of Attorney). The corresponding substitution or modification of the Proposal must accompany the written notice. All notices must be received by IRENA prior to the deadline for submission of Proposals and submitted in accordance with Clause 21.1 of Section 2 (except that withdrawal notices do not require copies). The respective envelopes shall be clearly marked “WITHDRAWAL,” “SUBSTITUTION,” or “MODIFICATION”.

23.3 Proposals requested to be withdrawn shall be returned unopened to the Proposers.

23.4 No Proposal may be withdrawn, substituted, or modified in the interval between the deadline for submission of Proposals and the expiration of the period of proposal validity specified by the Proposer on the Proposal Submission Form or any extension thereof.

## 24. **Proposal Opening**

24.1 IRENA will open the Proposals in the presence of an ad-hoc committee of at least two (2) members formed by IRENA.

24.2 The Proposers’ names, withdrawals, substitutions and modifications, the condition of the labels/seals of the envelope, the presence or absence of required documents, and such other

details as IRENA may consider appropriate will be announced at the opening. No Proposal shall be rejected at the opening stage, except for late submission, for which the Proposal shall be returned unopened to the Proposer.

## **25. Confidentiality**

- 25.1 Information relating to the examination, evaluation, and comparison of Proposals and recommendation of contract award shall not be disclosed to Proposers or any other persons not officially concerned with such process, even after publication of the contract award.
- 25.2 Any effort by a Proposer to influence IRENA in the examination, evaluation and comparison of the Proposals or contract award decisions may, at IRENA's decision, result in the rejection of its Proposal.
- 25.3 In the event that a Proposer is unsuccessful, the Proposer may seek a meeting with IRENA for a debriefing. Such debriefing shall be limited to discussing the strengths and weaknesses of the Proposal of said Proposer in order to assist the Proposer in improving future proposals to IRENA. The content of other Proposals, their evaluation and how they compare to the Proposer's Proposals shall not be discussed.

## **26. Clarification of Proposals**

To assist in the examination, evaluation and comparison of Proposals, IRENA may, at its discretion, ask any Proposer for a clarification of its Proposal.

IRENA's request for clarification and the response shall be in writing. Notwithstanding the written communication, no change in the prices or substance of the Proposal shall be sought, offered, or permitted, except to provide clarification, and confirm the correction of any arithmetic errors discovered by IRENA in the evaluation of the Proposals, in accordance with Clause 30 of this Section 2.

Any unsolicited clarification submitted by a Proposer in respect to its Proposal, which is not a response to a request by IRENA, shall not be considered during the review and evaluation of the Proposals.

## **E. EVALUATION AND COMPARISON OF PROPOSALS**

### **27. Preliminary Examination of Proposals**

- 27.1 IRENA shall examine the Proposals to determine whether they are complete, whether the documents have been properly signed, and whether the Proposals are generally in order. IRENA reserves the right to reject any Proposal after preliminary examination of the Proposal, if IRENA finds a reason for such rejection, including but not limited to the discovery of significant or material deviation, conflict of interest or fraud, among others.
- 27.2 IRENA shall reject the Proposal of any Proposer found to appear in a United Nations Security Council sanctions list or such ineligibility lists as may be established or recognised by IRENA in accordance with its applicable rules, policies and procedures.

### **28. Evaluation of Proposals**

- 28.1 IRENA shall examine the Proposal to confirm that the IRENA General Terms and Conditions for Professional Services and any Special Conditions of the RFP have been accepted by the Proposer without any deviation or reservation.
- 28.2 In the first stage, the evaluation committee shall review and evaluate the Technical Proposals on the basis of their responsiveness to the Terms of Reference and other requirements in the RFP, applying the evaluation criteria, sub-criteria, and point system specified in the **Data Sheet** (DS no. 26). Each responsive Proposal will be given a technical score. A Proposal shall be rendered non-responsive at this stage if it does not substantially respond to the RFP, and particularly the Terms of Reference, or if it fails to achieve the minimum technical score indicated in the Terms of Reference. No changes shall be made by IRENA to the criteria, sub-criteria and point system indicated in the **Data Sheet** (DS no. 26) after all Proposals have been received.
- 28.3 In the second stage, only the Financial Proposal of those Proposers that achieve the minimum technical score will be opened for evaluation. The Financial Proposals corresponding to Technical Proposals that did not meet the minimum passing technical score shall be returned to the relevant Proposers unopened. The overall evaluation score will be based either on a combination of the technical and financial scores, or on the lowest evaluated financial proposal of the technically qualified Proposers. The evaluation method that applies for this RFP shall be as indicated in the **Data Sheet** (DS no. 22).
- 28.4 IRENA reserves the right to undertake a post-qualification exercise aimed at determining to its satisfaction the accuracy, authenticity and validity of information provided by the Proposer through verification and reference checking, among other means that it deems appropriate, at any stage within the selection process.
- 28.5 When the **Data Sheet** (DS no. 22) specifies that the evaluation method to be used shall be the combined scoring method, the formula for evaluating the Proposals shall be as follows:

$$p = y (x/z)$$

where:

p = weighted percentage points for the Financial Proposal being evaluated

y = maximum weighted percentage number of points for the Financial Proposal, as indicated in the **Data Sheet** (DS no. 22)

x = price of the lowest priced Proposal

z = price of the Proposal being evaluated based on a combination of the technical and financial scores

## 29. Responsiveness of Proposal

- 29.1 IRENA's determination of a Proposal's responsiveness is to be based on the contents of the Proposal itself.
- 29.2 A substantially responsive Proposal is one that conforms to all the terms, conditions, and specifications of the RFP without material deviation, reservation, or omission.
- 29.3 If a Proposal is not substantially responsive, it shall be rejected by IRENA and may not subsequently be made responsive by the Proposer by correction of the material deviation, reservation, or omission.

### 30. **Nonconformities, Errors and Omissions**

- 30.1 Provided that a Proposal is substantially responsive, IRENA may waive any non-conformities or omissions in the Proposal that do not constitute a material deviation.
- 30.2 Provided that a Proposal is substantially responsive, IRENA may request the Proposer to submit the necessary information or documentation, within a reasonable period of time, to rectify nonmaterial nonconformities or omissions in the Proposal related to documentation requirements. Failure of the Proposer to comply with the request may result in the rejection of its Proposal.
- 30.3 Provided that the Proposal is substantially responsive, IRENA shall correct arithmetical errors on the following basis:
- 30.3.1 If there is a discrepancy between the unit price and the line item total that is obtained by multiplying the unit price by the quantity, the unit price shall prevail and the line item total shall be corrected, unless in the opinion of IRENA there is an obvious misplacement of the decimal point in the unit price, in which case the line item total as quoted shall govern and the unit price shall be corrected;
- 30.3.2 If there is an error in a total corresponding to the addition or subtraction of subtotals, the subtotals shall prevail and the total shall be corrected; and
- 30.3.3 If there is a discrepancy between words and figures, the amount in words shall prevail, unless the amount expressed in words is related to an arithmetic error, in which case the amount in figures shall prevail subject to the above.
- 30.4 If the Proposer does not accept the correction of errors made by IRENA, its Proposal shall be rejected.

## **F. AWARD OF CONTRACT**

### 31. **Right to Accept, Reject, or Render Non-Responsive Any or All Proposals**

IRENA reserves the right to accept or reject any Proposal, to render any or all Proposals as non-responsive, and to annul the solicitation process and reject all Proposals at any time prior to award of Contract, without thereby incurring any liability to the affected Proposer(s), or any obligation to inform the affected Proposer(s) of the grounds for IRENA's action. Furthermore, IRENA shall not be obliged to award the Contract to the Proposer that submitted the lowest priced Proposal.

### 32. **Award Criteria**

Prior to the expiration of Proposal validity, IRENA shall award the Contract to the qualified Proposer with the highest score based on the evaluation method indicated in the **Data Sheet** (DS no. 22).

### 33. **Contract Signature**

Within fifteen (15) days from the date of receipt of the Contract negotiated between IRENA and the successful Proposer, the successful Proposer shall sign and date the Contract and return it to IRENA.

### 34. **Performance Security**

- 34.1 A performance security, if required, shall be provided in the amount and form and by the deadline indicated in the **Data Sheet** (DS nos. 9 and 10), as applicable.
- 34.2 Failure of the successful Proposer to comply with the requirement of RFP Clause 33 or RFP Clause 35 shall constitute sufficient grounds for the annulment of the award and forfeiture of the performance security if any, on which event IRENA may award the Contract to the Proposer with **the second highest rated Proposal, or call for new Proposals.**

**35. Right to Vary Requirements at the Time of Award**

At the time of award of Contract, IRENA reserves the right to vary the quantity of services and/or goods, by up to a maximum ten per cent (10%) of the total offer, without any change in the unit price or other terms and conditions.

**36. Bank Guarantee for Advance Payment**

Except when the interests of IRENA so require, it is IRENA's policy to make no advance payment(s) on contracts. In the event that the Proposer requires an advance payment and if such request is duly accepted by IRENA, and the said advance payment exceeds 20% of the total proposal price or the amount of \$30,000, IRENA shall require the Proposer to submit a bank guarantee in the same amount as the advance payment and in the form provided in Section 11.

**37. Proposer's Conference**

When appropriate, a pre-proposal conference will be conducted at the date, time and location specified in the **Data Sheet** (DS no. 7). All Proposers are encouraged to attend. Non-attendance, however, shall not result in disqualification of an interested Proposer. Minutes of the Proposers' conference will be either posted on the IRENA website or disseminated to the individual firms that have registered or expressed interest in the RFP, whether or not they attended the conference. No statement made during the conference shall modify the terms and conditions of the RFP unless such statement is issued as an amendment in the form of a Supplemental Information to the RFP.

**38. Vendor Protest**

The IRENA vendor protest procedure provides an opportunity for appeal to those persons or firms not awarded a purchase order or contract through a competitive procurement process. This procedure is not available to Proposers whose Proposals were rejected. In the event that you believe you have not received fair treatment, the following email provides further details regarding IRENA vendor protest procedures: [awardreview@irena.org](mailto:awardreview@irena.org).

The Agency’s approval of a subcontractor shall not relieve the Contractor of any of its obligations under the Contract, and the terms of any subcontract shall be subject to and in conformity with the provisions of the Contract.

### 9. INDEMNIFICATION

The Contractor shall indemnify, hold and save harmless and defend at its own expense the Agency, its officers, agents, servants and employees from and against all suits, claims, demands and liability of any nature or kind, including cost and expenses arising out of acts or omissions of the Contractor or its employees or subcontractors in the performance of the Contract. This requirement shall extend, inter alia, to claims or liabilities in the nature of workers’ compensation, product liability and to liabilities pertaining to intellectual property rights. The obligations under this clause do not lapse upon termination of the Contract.

### 10. INSURANCE AND LIABILITIES TO THIRD PARTIES

- (iii) Provide that the Agency shall receive thirty (30) days written notice from the insurers prior to any cancellation or change of coverage.

(e) The Contractor shall, upon request, provide the Agency with satisfactory evidence of the insurance required under this Article.

(f) The Contractor acknowledges and agrees that neither the requirement for taking out and maintaining insurance as set forth in the Contract nor the amount of any such insurance, including, but not limited to, any deductible or retention relating thereto, shall in any way be construed as limiting the Contractor's liability arising under or relating to the Contract.

#### **11. ENCUMBRANCES/LIENS**

The Contractor shall not cause or permit any lien, attachment or other encumbrance by any person to be placed on file in any public office or on file with the Agency against any monies due or to become due for any Services provided under the Contract, or by reason of any other claim or demand against the Contractor.

#### **12. TITLE TO EQUIPMENT**

Title to any equipment and supplies that may be furnished by the Agency shall rest with the Agency and any such equipment shall be returned to the Agency at the conclusion of the Contract or when no longer needed. Such equipment, when returned shall be in the same condition as when delivered to the Contractor, subject to normal wear and tear, and the Contractor shall be liable to compensate the Agency for any damage or degradation of the equipment that is beyond normal wear and tear.

#### **13. OBSERVANCE OF THE LAW**

The Contractor shall comply with all laws, ordinances, rules and regulations bearing upon the performance of its obligations under the terms of the Contract.

#### **14. COPYRIGHT, PATENTS AND OTHER PROPRIETARY RIGHTS**

(a) Except as otherwise expressly provided in the Contract, the Agency shall be entitled to all intellectual property and

other property rights, including but not limited to copyrights, patents and trademarks, with regard to products, documents or other materials which bear a direct relation to or are produced, prepared or collected in consequence or in the course of the execution of the Contract. At the request of the Agency, the Contractor shall take all necessary steps, prepare and process all necessary documents and assist in securing such proprietary rights and transferring them to the Agency in compliance with the requirements of the applicable law.

(b) To the extent that any such intellectual property or other proprietary rights consist of any intellectual property or other proprietary rights of the Contractor: (i) that pre-existed the performance by the Contractor of its obligations under the Contract, or (ii) that the Contractor may develop or acquire, or may have developed or acquired, independently of the performance of its obligations under the Contract, the Agency does not and shall not claim any ownership interest thereto, and the Contractor grants to the Agency a non-exclusive, perpetual and irrevocable license to use such intellectual property or other proprietary right.

#### **15. CONFIDENTIALITY**

(a) All technical, financial or other documentation and data the Contractor compiled for or received from the Agency under the Contract shall be treated as confidential and shall be delivered only to the Agency's authorised officials on completion of the work or services or as requested by the Agency.

(b) The Contractor may not communicate at any time to any other person, Government or authority external to the Agency, any information known to it by reason of its association with the Agency which has not been made public except with the authorisation of the Agency, nor shall the Contractor at any time use such information to private advantage. #### **16. USE OF NAME, EMBLEM, OR OFFICIAL SEAL OF THE AGENCY**

The Contractor shall not advertise or otherwise make public for purposes of commercial advantage that it is a Contractor of the Agency, nor shall the Contractor, in any manner whatsoever, use the name, emblem or official seal of the Agency or any abbreviation of the name of the Agency in connection with its business or otherwise, without the prior written approval by the Agency. #### **17. FORCE MAJEURE**

(a) *Force majeure* as used herein shall mean any unforeseeable and irresistible act of nature, any act of war (whether declared or not), invasion, revolution, insurrection, terrorism, or any other acts of a similar nature or force, provided that such acts arise from causes beyond the control and without the fault or negligence of the Contractor.

(b) In the event of or as soon as possible after the occurrence of any cause constituting *force majeure*, the Contractor shall give notice and full particulars in writing to the Agency of such occurrence if the Contractor is thereby rendered unable, wholly or in part, to perform its obligations and meet its responsibilities under the Contract. The Contractor shall also

notify the Agency of any other changes in conditions or the occurrence of any event which interferes or threatens to interfere with the Contractor's performance under the Contract. Upon receipt of the notice required under this Article, the Agency shall take such action as, in its sole discretion, it considers to be appropriate or necessary in the circumstances, including the granting to the Contractor of a reasonable extension of time in which to perform its obligations under the Contract.

(c) If the Contractor is rendered permanently unable, wholly or in part, by reason of force majeure to perform its obligations and meet its responsibilities under the Contract, the Agency shall have the right to terminate the Contract on the same terms and conditions as are provided for in Article 19 ("Termination") of these General Terms and Conditions, except that the period of notice may be seven (7) days instead of thirty (30) days.

#### 18. AMENDMENT

Except as otherwise expressly provided in the Contract, the provisions of the Contract and the annexes thereto may be amended or supplemented only by means of a written agreement signed by all of the Parties or their authorised representatives.

The initiation of arbitral proceedings in accordance with Article 20 ("Settlement of Disputes") of these General Terms and Conditions, shall not be deemed a termination of the Contract.

(b) The Agency may terminate forthwith the Contract at any time should the funding for the Agency be curtailed or terminated, in which case the Contractor shall be reimbursed by the Agency for all reasonable costs incurred by the Contractor prior to receipt of the notice of termination.

(c) In the event of termination by the Agency, no payment shall be due from the Agency to the Contractor except for work and services satisfactorily performed and accepted by the Agency in accordance with the express terms of the Contract.

(d) Should the Contractor be adjudicated bankrupt, or be liquidated or become insolvent, or should the Contractor make an assignment for the benefit of its creditors, or should a Receiver be appointed on account of the insolvency of the Contractor, the Agency may, without prejudice to any other right or remedy it may have under the Contract terminate the Contract forthwith. The Contractor shall immediately inform the Agency of the occurrence of any of the above events.

#### 20. SETTLEMENT OF DISPUTES

(a) **Amicable Settlement:** The Parties shall use their best efforts to settle amicably any dispute, controversy or claim arising out of this Contract or the breach, termination or invalidity thereof. Where the Parties wish to seek such an amicable settlement through conciliation, the conciliation shall take place in accordance with the Conciliation Rules then obtaining of the United Nations Commission on International Trade Law ("UNCITRAL"), or according to such other procedure as may be agreed between the Parties.

(b) **Arbitration:** Any dispute, controversy, or claim between the Parties arising out of the Contract or the breach, termination, or invalidity thereof, unless settled amicably under Article 20(a) above ("Amicable Settlement"), within sixty (60) days after receipt by one Party of the other Party's written request for such amicable settlement, shall be referred by either Party to arbitration in accordance with the UNCITRAL Arbitration Rules then obtaining. The decisions of the arbitral tribunal shall be based on general principles of international commercial law. The arbitral tribunal shall be empowered to order the return or destruction of goods or any property, whether tangible or intangible, or of any confidential information provided under the Contract, order the termination of the Contract, or order that any other protective measures be taken with respect to the goods, services or any other property, whether tangible or intangible, or of any confidential information provided under the Contract, as appropriate, all in accordance with the authority of the arbitral tribunal pursuant to Article 26 ("Interim measures") and Article 34 ("Form and effect of the award") of the UNCITRAL Arbitration Rules. The arbitral tribunal shall have no authority to award punitive damages, nor to award interest in excess of the London Inter-Bank Offered Rate ("LIBOR") then prevailing, and any such interest shall be simple interest only. The Parties shall be bound by any arbitration award rendered as a result of such arbitration as the final adjudication of any such dispute, controversy or claim.

#### 21. PRIVILEGES AND IMMUNITIES

Nothing in or relating to the Contract shall be deemed a waiver, express or implied, of any of the privileges and immunities of the Agency.

#### 22. ANTI-FRAUD AND ANTI-CORRUPTION

1. The Contractor acknowledges and agrees that IRENA has zero tolerance for Fraudulent, Corrupt and/or Collusive Practices (as such terms are defined below).

2. In particular, and without limitation, the Contractor represents and warrants to IRENA that it has not, and it shall not, at any time: (a) perform any act or omit to perform any act, including any misrepresentation, in order to knowingly mislead, or attempt to mislead, IRENA and/or any other party to obtain a financial or other benefit or to avoid any obligation ("Fraudulent Practice"); (b) offer, give, receive or solicit, directly or indirectly, or attempt to offer, give, receive or solicit, directly or indirectly, anything of value to improperly influence the actions of IRENA and/or any other party ("Corrupt Practice"); nor (c) enter into any arrangements with any other party or parties that are designed to achieve an improper purpose, including but not limited to improperly influencing the actions of IRENA and/or any other party or engaging in price fixing ("Collusive Practice", and together with Fraudulent Practices and Corrupt Practices, "Prohibited Practices").

3. The Contractor shall communicate the IRENA Anti-Fraud and Anti-Corruption practices to its officers, employees, contractors, subcontractors and agents and shall take all reasonable measures to ensure that such persons do not engage in Prohibited Practices.

4. The Contractor shall immediately disclose to IRENA any actual, apparent, potential or attempted Prohibited Practice that the Contractor becomes aware of. To that end, the Contractor shall fully cooperate, and shall take all reasonable steps to ensure that its officers, employees, contractors, subcontractors and agents fully cooperate, with any investigation of Prohibited Practices by IRENA, including by complying with all reasonable requests from IRENA to

gain access to and inspect any records, documents and other relevant information.

5. (a) The Contractor expressly acknowledges and agrees that any breach of this clause by the Contractor or by any of its officers, employees, contractors, subcontractors or agents, constitutes a material breach of this Agreement, which entitles IRENA to immediately terminate this Agreement without incurring any liability to the Contractor.

### **23. LIQUIDATED DAMAGES FOR DELAY**

If the Contractor fails to perform any of the services within the time period specified in the Contract, IRENA may, without prejudice to any other rights and remedies, withhold and deduct from the total price stipulated in this Contract an amount of 0.10% of the price of such unperformed services for each calendar day of delay until actual completion up to maximum deduction of 10% of the contract price. Once the maximum limit is reached, IRENA reserves the right to cancel the contract in the event of default or significant delay by the Contractor for delay in unperformed services beyond the stipulated date.

### **24. CHILD LABOUR**

The Contractor represents and warrants that it is not engaged in any practice inconsistent with the rights set forth in the Convention on the Rights of the Child, including Article 32 thereof, which, inter alia, requires that a child shall be protected from performing any work that is likely to be hazardous or to interfere with the child's education, or to be harmful to the child's health or physical mental, spiritual, moral or social development. Any breach of this representation and warranty shall entitle IRENA to terminate this Contract immediately upon notice to the Contractor, at no cost to IRENA.

### **25. MINES**

The Contractor represents and warrants that it is not actively and directly engaged in patent activities, development, assembly, production, trade or manufacture of mines or in such activities in respect of components primarily utilized in the manufacture of Mines. The term "Mines" means those devices defined in Article 2, Paragraphs 1, 4 and 5 of Protocol II annexed to the Convention on Prohibitions and Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively Injurious or to Have Indiscriminate Effects of 1980. ### Section 9: Financial Proposal Form

The Proposer is required to submit the Financial Proposal in a separate file from the rest of the RFP response as indicated in Clause 21 of the Instructions to Proposers.

The Financial Proposal must provide a detailed cost breakdown. The format shown on the following pages is suggested for use as a guide in preparing the Financial Proposal. The format includes specific expenditures, which may or may not be required or applicable but are indicated to serve as examples.

#### Costing model

The proposed costing model is considering flexibility required for changes on the schedule and on the number of attendees. The current LTA financial selection will be based on the 2 scenarios for Council 2022 and Assembly 2023 explained above which should be calculated using the below costing model.

The lumpsum per day should depend on the complexity of the setup and the range of number of the physical attendance. It should cover the cost of the main equipment rental, installation and support team and the cost for physical attendance according to the including equipment required by physical attendance and related support.

Session/Room setup	Plenary Council	Plenary Assembly	Ministerial/ Preassembly meeting	Side Event – Hybrid at Hotel venue	Side Event – Virtual – Studio at IRENA HQ	Press Conference -Hybrid at Hotel venue
